- | | | |
|-------------------------|--|--|
| ✓ Python, C++, Java | ✓ Knowledge of Linux/Mac/Windows operating systems | ✓ Excellent software problem solving and identification skills |
| ✓ HTML, CSS, JavaScript | ✓ Dedicated to learning and expanding my skillset | ✓ Self-motivated, actively seeks out and tackles problems |

PERSONAL PROJECTS

Game Development

- *C++ Maze Project*
 - Created and developed a Maze game utilizing C++ and object-oriented programming techniques.
 - Implemented game logic and mechanics, including user input handling and collision detection.
 - Utilized various data structures, such as arrays and linked lists, to efficiently store and retrieve game information.
 - Developed a user-friendly interface for players to navigate the maze and reach the end goal.
 - Utilized debugging techniques to troubleshoot and fix any bugs that arose during the development process.

Web Development

- *Ripeopedia*
 - Developed and designed a website using HTML, CSS, and JavaScript that allows users to input the state of their food (ripe, raw, overcooked, etc.) and generates a list of recipes based on the input.
 - Utilized JavaScript to dynamically update the website with appropriate recipes, and used CSS for styling and design.
 - Implemented user input validation and error handling to ensure accurate and efficient generation.
 - Utilized debugging techniques to troubleshoot any bugs that arose during development.

WORK EXPERIENCE

Cashier

May 2021 - Present

RONA Home & Garden

Ottawa, ON

- Trained to efficiently use a multitude of indexing systems.
- Ensured a smooth, efficient, and welcoming transaction experience for each customer.
- Trained newly employed cashiers to be efficient and well-versed in Rona systems

Computer Administrative Clerk

Jun. 2020 - Sept. 2020

The Teal Umbrella

Ottawa, ON

Securely digitized medical records for the entire clinic ensuring 1000+ patient records are scanned, indexed, and stored safely.

- Followed the quality control procedures to eliminate errors in the system.
- Transferred the business from a physical file system to a digitized file system.
- Trained and supervised other administrative clerks on the new systems.
